

Product Information

Product: Super Immunoblotting Blocker

Catalog Number: PRO-0003T

Quantity: 1.0 mL

Lot Number: 050718

Physical State: Liquid

Preservative: No

Storage: -20°C

Procedure:

100 – 200 µl of Super Immunoblotting Blocker for every 3 mL of IgY antibody in 5% milk.

Specifications:

This E. coli-derived cell lysate helps to reduce non-specific background in Western Blot assay, particularly when E. coli derived recombinant antigen is used.
